

## Pool Drinks

Want to cool off after a hot day at the pool? You've invited some friends round and want to serve a "real" pool drink? Then mix one yourself. It really is simple!

### Swimming Pool

- \* 2 cl Vodka
- \* 2 cl Cream
- \* 1 cl Blue Curacao
- \* 2 cl Cream of Coconut
- \* 6 cl Pineapple juice
- \* 2 cl White rum
- \* Crushed ice

Shake all the ingredients (except for the Blue Curacao) thoroughly on ice in a cocktail shaker. Sieve into a tropical glass filled with crushed ice. Then float the Curacao Blue on top by pouring it onto the drink over the back of a spoon.

For decoration: Stick a piece of pineapple and a cocktail cherry on the edge of the glass.

### Whirlpool (alcohol-free)

- \* 2 cl Cream
- \* 2 cl Curacao Blue Syrup
- \* 2 cl Orange juice
- \* 8 cl Pineapple juice
- \* 2 cl Coconut syrup
- \* Crushed ice

Mix everything well in a cocktail shaker. Sieve the contents onto crushed ice in a balloon glass.

Decorate with a piece of pineapple.
