

### Desalgin® Jet

Desalgin Jet prevents algae growth in swimming pools. It is chlorine and foam free, making it especially suitable for counter current float systems.

Desalgin Jet works for a very long time and is very economical to use because of the high active agent content. pH-neutral. Desalgin is also free of chlorine and heavy metals, making it suitable for all kinds of swimming pools. When in use concentration it is particularly skin friendly.

Always use biocides safely. Always read labels and product information carefully before use.
