

Chlorifix Compact

Fast-dissolving micro-pellets with high active chlorine content for additional and quick disinfection. Especially suitable for shock chlorination when your swimming pool water is algae-infected or the water is turbid. Works fast against organic substances that cause turbidity and other contaminants like algae, bacteria, fungi, viruses, etc. and makes the water clear again.

Pre-portioned in practical foil bags for easy dosage. No measuring needed, and less packaging.

Dissolves completely without leaving a residue. Lime free, pH-neutral.

Always use biocides safely. Always read labels and product information carefully before use.
