

Multilong

Multilong is the complete pool water treatment. The cartridge ensures:

- continuous disinfection, thanks to the slow dissolving chlorine
- instant disinfection, thanks to the fast-dissolving chlorine
- algae inhibition, thanks to a highly efficient
- non-foaming algaecide
- continuous water clarification, thanks to the slow dissolving flocculant

Multilong is available in the form of a pre-metered cartridge for a 50 m³ pool, which is placed directly in the skimmer basket. One cartridge will provide 2 weeks' treatment.

Always use biocides safely. Always read labels and product information carefully before use.
