

TECHNICAL DATA SHEET

PH-MINUS LIQUID DOMESTIC

PH REDUCER

Brings pH back to its ideal range

3 4
2 1

WATER BALANCE

ADVANTAGES

- For disinfection that is 5 times more effective*
- Hydrochloric acid-free: low corrosion risk for equipment and technical areas
- High chemical purity

*Chlorine: pH 7.0 VS 8.0

PRODUCT FUNCTION

Water balance.

pH-Minus Liquid Domestic is designed to lower pH levels above 7.4. Ideal for automatic control systems. Intended for general public use.

PRODUCT DESCRIPTION

A liquid based on sulphuric acid.

Compatible with all treatment methods (chlorine, bromine, active oxygen, PHMB, etc.), all filtration systems (diatomaceous earth, cartridges, sand, etc.) and all pool finishes (liner, tiles, silicomarble, polyester).

Contains: Sulfuric acid 14,9 % (CAS N° 7664-93-9)

Available size: 20 L

IMPORTANT RECOMMENDATIONS

Never dilute this product. Remember to adjust the settings on your dosing equipment according to the product concentration. Be sure to comply with the manufacturer's instructions for using dosing pumps. Store apart from sodium hypochlorite.

APPLICATION

- The pH MINUS LIQUID DOMESTIC is injected directly from the original container via a dosing pump on the return circuit (after heating).
- If the pH level becomes too high, adjust the level and bring it down to the ideal range, between 7.0 and 7.4. To lower the pH level by 0.1 inject 300 ml of product per 10 m3.
