

TECHNICAL DATA SHEET

SUPERKLAR CLARIFIER

Effectively combats cloudy water

2 3
1 4

WATER CLARITY

ADVANTAGES

- **Highly concentrated formula**
- **Ideal for cartridge filters, sand and glass media filters**
- **Makes the water crystal clear**
- **Effective and long-lasting**
- **Effective even at high temperatures**

PRODUCT FUNCTION

Flocculation.

Superklar's clarifying effect quickly clears up cloudy water. The result: crystal-clear water

PRODUCT DESCRIPTION

A translucent blue liquid.

Compatible with all filters*, regardless of the disinfectant used

Available size: 0.5 L

DOSING INFORMATION

Filter type: All	Where: In the water
Water volume: All	When: Weekly

WARNINGS

Never mix different chemicals in their concentrated form. Always add the product to the water, never the other way round. Using Superklar results in more effective filtration. As the filter traps more impurities, more frequent backwashing may be necessary. Do not store below 5 °C

MODE D'EMPLOI

- Check the pH value with BAYROL test strips or the BAYROL ELECTRONIC POOLTESTER II and, if necessary, adjust it to the ideal range of 7.0 to 7.4.
- Pour the recommended dosage of the undiluted SUPERKLAR directly into the pool with the circulation pump running.
- After application, let the circulation pump run for at least 8 hours.
- If the water still remains cloudy, the water is organically contaminated. In this case, carry out a shock chlorination.

Weekly dosage:

- 10 ml of SUPERKLAR per 10 m3.

IMPORTANT RECOMMENDATIONS

Water treatment should be carried out when the filtration is running and no swimmers are in the pool. Do not store under 5° C.
