POOLMANAGER®

THE NEW BENCHMARK FOR EXCLUSIVE POOLS

BAYROL TECHNIK

POOLMANAGER®

PREMIUM TECHNOLOGY.
THOUGHTFUL DESIGN.
MADE IN GERMANY.

PoolManager® Series 6 embodies the expertise of BAYROL Technik: a refined combination of German engineering, technical precision and premium design, developed for exceptional pool projects.

MORE VALUE
FOR YOUR PROJECTS.
MORE PEACE OF MIND
FOR YOUR CUSTOMERS.

Imagine a world
where complete pool management
becomes more powerful,
more reliable and effortlessly simple.

A fully connected world,
free from complexity,
where every function can be
controlled wherever you are.

THIS WORLD ALREADY EXISTS.

DISCOVER THE NEW

POOLMANAGER®

POOLMANAGER®

A NEW OPPORTUNITY FOR YOUR HIGH-END PROJECTS.

PoolManager® Series 6 is far more than a water treatment device: it becomes the intelligent heart of the installation.

It centralises equipment, simplifies monitoring and enhances even the most demanding projects.

For you, it is a premium solution that sets you apart and creates immediate added value.

NEW DESIGN.
EXCELLENCE AT FIRST GLANCE.

PoolManager® Series 6 impresses with a high-quality, elegant and timeless presence that lives up to your projects.

EXCLUSIVE DESIGN
thanks to clean lines and surfaces that combine a matt feel with brushed aluminium.

IMMEDIATELY PERCEPTIBLE QUALITY
through a modern glass front that gives structure.

CLEAR DISPLAY OF THE MOST IMPORTANT INFORMATION
on a large, high-resolution 7" display.

SIMPLIFIED INSTALLATION. IMMEDIATE EFFICIENCY FROM THE VERY START.

This platform has been developed to optimise every stage of installation. Its intuitive approach helps you work faster, more precisely and more reliably from the very first start-up.

FASTER CONNECTIONS

colour-coded BNC connectors, quick terminals and a new control housing design that makes wiring easier.

CUSTOMISABLE CONFIGURATION

a new-generation display, customisable widgets and setup assistants that guide you step by step.

EASIER HANDLING ON SITE

practical, robust and easy-to-handle one-piece cover that simplifies access during installation or maintenance.

THE INTELLIGENT CONTROL CENTRE OF THE POOL. MORE CONTROL. MORE POSSIBILITIES.

PoolManager® Series 6 centralises control of the entire technical pool equipment and supports even the most exclusive projects.

ADVANCED CONTROL

Up to 28 available relays for intelligent control of pool and garden equipment: pump, filtration, heating, water features, lighting…

NEW ADD-ON MODULES

Level control, leak detection, flow controller, Smart & Easy Control Module ... an ever-growing range of functions for particularly sophisticated pools.

CONTINUOUS DEVELOPMENT

Remote updates, without any on-site intervention.

APPS & CONNECTIVITY.
SMARTER THAN EVER BEFORE.

PoolManager® Serie 6 makes it easier to control, adjust and monitor equipment, strengthening responsiveness and service quality over the long term.

REMOTE CONTROL & INSTALLATION MONITORING

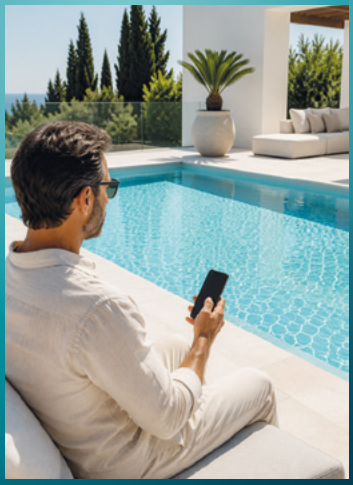

new app for easy control of the key functions and Pool Access web portal for remote monitoring.

FLEXIBLE CONNECTIVITY AS STANDARD

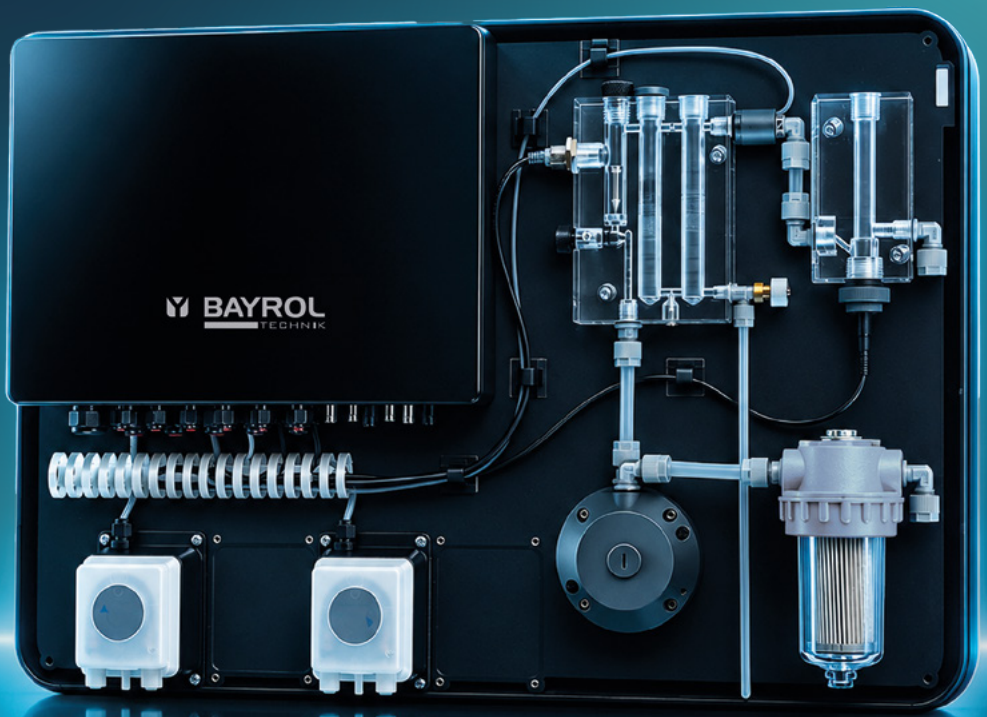

connection via RJ45 cable or Wi-Fi, without needing an additional module.

MORE RESPONSIVE MONITORING

warnings and notifications helping you quickly identify situations that require intervention.

TECHNICAL PRECISION IN EVERY DETAIL.

PoolManager® PRO with optional Flow Regulator.

POOLMANAGER®

ADVANCED TECHNOLOGY MEETS SUPERIOR QUALITY.

ACHIEVE CRYSTAL CLEAR WATER

THROUGH AUTOMATED, INTELLIGENT POOL MANAGEMENT.
